## Jumpstart Your Career at Hart to Heart

### The Hart to Heart Difference

- › Competitive compensation package
- › Access to comprehensive benefits package (medical, dental, vision, life, 401K)
- › Scheduling flexibility with full-time and part-time shift options available 24/7
- › Ongoing educational opportunities, including tuition reimbursement
- › Annual training, refresher and recertification courses offered
- › New ambulances designed to support team member ergonomics

*“I joined Hart to Heart immediately after I graduated from Havre de Grace High School. I wanted to be an EMT because I knew that it was the type of job that would allow me to help other people. Every day, I get to do just that, and I am learning so many new skills. Every call that comes in presents an opportunity to see and experience something new. I am enjoying my work and am so glad to be part of the Hart to Heart team.”*

—Haley K., EMT-B

### Join Our Team

Are you a recent or soon-to-be high school graduate with a vision to pursue a career in the medical field? Hart to Heart can offer you an opportunity that will put you on the right path to success!

As an emergency medical technician (EMT) for Hart to Heart, you will learn, grow and experience on a daily basis. Through working with our clients and customers, you will gain valuable new personal and professional skills that will be critically important on your career path.

As our company grows, we are recruiting emerging EMTs to join our team. If you would like to work with an evolving, team-focused company that will make your career goals a priority, Hart to Heart is the right employer for you.
